

RE-PLAY NATURE WHITE WS FSC™ / SH6020 PLUS / WG74

PRODUCT DESCRIPTION / BENEFITS

Face : Paper 100% recycled from post consumer and post Industrial waste collection with up to 15% of wine label glassine content recovered from end users. Natural paper with WS treatment, FSC certified.
Due to the nature of the raw material used, there may be the small impurities and/or slight variations in tone and appearance which are normal in a recycled product.

Adhesive : Permanent modified acrylic adhesive in water emulsion. Special adhesive designed for the production of "all-temperature" pressure sensitive adhesive for paper labels which require a broad application temperature. Paper laminated with PX1 possess a higher adhesion to cold and moist polyethylene surfaces.

Liner : One side siliconised clay coated Kraft. There may be slight variations in tone

FEATURES

ICE BUCKET

WET OPACITY

FRIDGE

TYPICAL USE

Wine, Spirits & Craft Beer

PRODUCT RECOMMENDATIONS

Specially designed for product labels of high added value bottled in glass (wine, licquors, oil, water,...)
For small diameters applications pre-test are recommended.
We recommend the reels to be wound with the face side out. The test of resistance to immersion in water-ice is carried out by sticking a blank(unprinted) label on a standard glass bottle. Five days after the label is stuck on, it is submerged in an ice bucket containing icy water for a minimum period of 4 hours and its resistance to immersion is checked.

SHELF LIFE

2 years, under storage conditions as defined by FINAT section 2.5 (20-25°C, 40-50% RH).Prolonged storage at higher temperatures and/or humidity levels will shorten the shelf life of the product.
